Students who complete this program are prepared to pursue a bachelor's degree in dental hygiene, medical records administration, medical technology, occupational therapy, physical therapy, or sonography. Students enrolled in this program are cautioned to correlate their SGSC work with that required by the senior college or university to which they will transfer. Possible career opportunities after additional education include: dental hygienist, health information management, cytotechnologist, occupational therapist, physical therapist, diagnostic medical sonographers, medical records and health information technician, and medical and clinical laboratory technologist and technician.

**This map is not a substitute for academic advisement—contact your advisor if you have any questions about scheduling or about your degree requirements.** Also, see the current undergraduate catalog for a complete list of requirements, electives, and pre-requisites. This is a typical schedule. Depending on course availability, other courses in the IMPACTS area may be substituted. Discuss any substitutions with your advisor. (FoS Field of Study)

The USG core curriculum, Core IMPACTS, is designed to ensure that students acquire essential knowledge in foundational academic areas and develop career-ready competencies. There are seven Core IMPACTS areas. As presented in the table below, IMPACTS is a mnemonic to emphasize the impact of the overall core curriculum.

<b>Core IMPACTS</b>
Institutional Priority
Mathematics & Quantitative Skills
Political Science and U.S. History
Arts, Humanities & Ethics
Communicating in Writing
Technology, Mathematics & Sciences
Social Sciences
