Students who complete this program are prepared to pursue the bachelor's degree in business administration with a major in logistics and intermodal transportation at a senior university awarding this degree, such as Georgia Southern University. Transportation firms, industry and government alike employ graduates trained and qualified in the coordination of intermodal transportation and supply chain management. With appropriate advisement, the A.S. degree in Logistics also prepares graduates for the bachelor's degree in accounting, economics, finance, general business, international business, industrial relations, management, management systems, marketing, real estate, risk management, and insurance. Academic advisement for this program is provided by the School of Arts & Professional Studies.

**This map is not a substitute for academic advisement—contact your advisor if you have any questions about scheduling or about your degree requirements.** Also, see the current undergraduate catalog for a complete list of requirements, electives, and pre-requisites. This is a typical schedule. Depending on course availability, other courses in the IMPACTS domain may be substituted. Discuss any substitutions with your advisor. (FoS Field of Study)

The USG core curriculum, Core IMPACTS, is designed to ensure that students acquire essential knowledge in foundational academic domains and develop career-ready competencies. There are seven Core IMPACTS domains. As presented in the table below, IMPACTS is a mnemonic to emphasize the impact of the overall core curriculum.

<b>Core IMPACTS</b>
<b>Institutional Priority</b>
<b>Mathematics &amp; Quantitative Skills</b>
<b>Political Science and U.S. History</b>
<b>Arts, Humanities &amp; Ethics</b>
<b>Communicating in Writing</b>
<b>Technology, Mathematics &amp; Sciences</b>
