THE PROGRAM OPTIONS

To carry out its academic mission, South Georgia State College has instituted degree options to meet the needs of its diverse student clientele. Students should select the option best suited to their personal and career interests. Academic advisors assist students in the selection of both short and long-term career goals. All AA/AS degree transfer pathways may be pursued on either the Douglas or Waycross campuses.

THE ASSOCIATE OF ARTS DEGREE (AA) & THE ASSOCIATE OF SCIENCE DEGREE (AS)

These degrees consist of 60 semester credit hours plus four hours of health and physical education requirements. Students who pursue the Associate of Arts or Associate of Science degree are enrolled in transfer pathways designed to lead to the bachelor's degree completed in one of SGSC's baccalaureate programs or baccalaureate programs at other University System of Georgia institutions. Specific options are spelled out in the pages that follow this section. Students who earn the Associate of Arts or the Associate of Science degree have fulfilled completely all Core Curriculum requirements (see page 64). For program requirements for SGSC baccalaureate degrees, see pages 100-113.

THE ASSOCIATE OF SCIENCE IN NURSING DEGREE (ASN)

The Associate of Science in Nursing Degree is a career associate degree consisting of 72 semester hours plus two hours of physical education requirements. Students who complete this degree are eligible to apply to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). Successful completion of the NCLEX-RN examination entitles the nurse to practice nursing and to use the title Registered Nurse (RN).

THE BACHELOR OF SCIENCE IN BIOLOGICAL SCIENCES (BSBS)

The Bachelor of Science in Biological Sciences consists of 124 semester hours, which includes 64 hours earned in pursuing an AS, preferably in the Biology or a related transfer pathway. Biological Sciences offers students two options: a Nature and Ecology track or a Pre-Professional track. The BSBS is currently offered only in Douglas.

THE BACHELOR OF SCIENCE IN ELEMENTARY/SPECIAL EDUCATION (BSELE/SPED)

The Bachelor of Science in Elementary/Special Education consists of 127 semester hours, which includes 64 hours earned in pursuing an AS, preferably in the Education transfer pathway. The BSELE/SPED may be pursued on either the Douglas or Waycross campus.

THE BACHELOR OF SCIENCE IN MANAGEMENT (BSM)

The Bachelor of Science in Management consists of 124 semester hours, which includes 64 hours earned in pursuit of an AS in the Business Administration transfer pathway. The BSM degree requires the completion of two of four options: Management and either Organizational Behavior, Marketing, Financial Technology (FinTech), or Emergency Services Management. The BSM is offered fully online.

THE BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING TECHNOLOGY (BSMET)

The Bachelor of Science in Mechanical Engineering Technology consists of 124 semester hours, which could include hours earned in pursuit of an Associate Degree. Graduates from this program will be able to meet local, state, and national employer demand for personnel skilled in a range of product and materials testing, design, and production. The BSMET is currently offered only in Douglas.

THE BACHELOR OF SCIENCE IN NURSING (RN-BSN)

The Bachelor of Science in Nursing Degree consists of 120 semester hours, which includes hours earned in pursuing an ASN degree. This program requires that the entering student possess a current valid RN license. The RN-BSN program is offered fully online.

ACADEMIC PROGRAM ORGANIZATION, DIVISIONS AND SCHOOLS

Whether leading to an Associate or a baccalaureate degree, each degree option includes a Core Curriculum that is divided into six areas: Institutional Priorities; Mathematics and Quantitative Skills; Political Science and U.S. History; Arts, Humanities, and Ethics; Communication in Writing; Technology, Mathematics, and Sciences; the Social Sciences; and courses related to the field of study. The Associate of Science in Nursing degree includes courses from similar areas. The College believes that requiring work in these areas provides a sound general education base for its students. The nature and number of hours required in these areas will vary according to the student's program of study.

ACADEMIC SCHOOLS

The College is organized by Schools. The present structure consists of the School of Arts and Sciences and the School of Nursing.

SCHOOL OF ARTS AND SCIENCES

The instructional programs of the School of Arts and Sciences are based upon the belief that the quality of life is enhanced by the acquisition of knowledge about self, others, and career; that all students benefit from the broadest possible exposure to the great heritage of world civilization and culture; that students of all fields of study can benefit from courses that help them develop the background necessary to make informed choices on many issues affecting modern societies; and that students may develop knowledge and skills necessary to maintain a healthy mind and body. To meet these objectives, the School offers a variety of courses for over twenty academic transfer pathways. Pathways in the School lead to the Associate of Arts degree or the Associate of Science degree.

Completion of an approved Associate of Arts or Associate of Science transfer pathway prepares the student for transfer to other four-year colleges or universities or prepares the student to complete baccalaureate programs offered at the institution.

The School offers the Bachelor of Science in Biological Sciences degree, the Bachelor of Science in Elementary/Special Education degree, the Bachelor of Science in Management degree, and the Bachelor of Science in Mechanical Engineering Technology degree.

The faculty of the School is committed to providing a variety of opportunities for students to test their abilities and maximize their capabilities. In addition to attracting guest lecturers, providing individualized instruction, and offering course credit by examination, the School sponsors on-campus symposia and encourages off-campus learning experiences such as college-community sponsored field trips and internships that can complement and supplement the traditional classroom activity.

SCHOOL OF NURSING

The School of Nursing offers the Associate of Science in Nursing and the Bachelor of Science in Nursing degrees. The Associate of Science in Nursing (ASN) and Bachelor of Science in Nursing (RN-BSN) programs are approved by the Georgia Board of Nursing. The contact information is listed below.

Georgia Board of Nursing 237 Coliseum Drive
Macon, GA 31217

Telephone: (478) 207-2440

Website: <https://sos.ga.gov/georgia-board-nursing>

The associate nursing program at South Georgia State College at the Waycross Campus located in Waycross, Georgia, and the associate and baccalaureate (RN-BSN) programs at South Georgia State College at the Douglas Campus located in Douglas, Georgia, are accredited by the Accreditation Commission for Education in Nursing (ACEN). The most recent accreditation decision made by the ACEN Board of Commissioners for the associate and baccalaureate (RN- BSN) nursing programs is Continuing Accreditation.

View the public information disclosed by the ACEN regarding these programs at <https://www.acenursing.org/search-programs>

THE CORE CURRICULUM AND AA AND AS PATHWAYS

In accord with the policies of the Board of Regents of the University System of Georgia, the College has established a Core Curriculum which offers students a broad general education covering Institutional Priorities; Mathematics and Quantitative Skills; Political Science and U.S. History; Arts, Humanities, and Ethics; Communication in Writing; Technology, Mathematics, and Sciences; and the Social Sciences. In addition, students are given the opportunity to begin study in a specific academic pathway leading to transfer into a baccalaureate degree program.

The USG core curriculum, Core IMPACTS, is designed to ensure that students acquire essential knowledge in foundational academic domains and develop career-ready competencies. There are seven Core IMPACTS domains. As presented in the table below, IMPACTS is a mnemonic for students to appreciate the impact of the overall core curriculum.

- I Institutional Priorities
- M Mathematics and Quantitative Skills
- P Political Science and U.S. History
- A Arts, Humanities & Ethics
- C Communicating in Writing
- T Technology, Mathematics & Sciences
- S Social Sciences

Core IMPACTS (Domain Shorthand)	Orienting Question	Learning Outcome(s)	Career-Ready Competencies
		to academic priorities at their institution.	
Mathematics & Quantitative Skills (Mathematics)	How do I measure the world?	Students will apply mathematical and computational knowledge to interpret, evaluate, and communicate quantitative information using verbal, numerical, graphical, or symbolic forms.	Information Literacy, Inquiry and Analysis, & Problem-Solving
Political Science and U.S. History (Citizenship)	How do I prepare for my responsibilities as an engaged citizen?	Students will demonstrate knowledge of the history of the United States, the history of Georgia, and the provisions and principles of the United States Constitution and the Constitution of Georgia.	Critical Thinking, Intercultural Competence, & Persuasion
Arts, Humanities & Ethics (Humanities)	How do I interpret the human experience through creative, linguistic, and philosophical works?	Students will effectively analyze and interpret the meaning, cultural significance, and ethical implications of literary/philosophical texts in English or other languages, or of works in the visual/performing arts.	Ethical Reasoning, Information Literacy, & Intercultural Competence
Communicating in Writing (Writing)	How do I write effectively in different contexts?	1) Students will communicate effectively in writing, demonstrating clear organization and structure, using appropriate grammar and writing conventions. 2) Students will appropriately acknowledge the use of materials from original sources. 3) Students will adapt their written communications to purpose and audience. 4) Students will analyze and draw informed inferences from written texts.	Critical Thinking, Information Literacy, & Persuasion
Technology, Mathematics & Sciences (STEM)	How do I ask scientific questions or use data, mathematics, or technology to understand the universe?	Students will use the scientific method and laboratory procedures or mathematical and computational methods to analyze data, solve problems, and explain natural phenomena.	Inquiry and Analysis, Problem-Solving, & Teamwork
Social Sciences (Social Sciences)	How do I understand human experiences and connections?	Students will effectively analyze the complexity of human behavior, and how	Intercultural Competence,

Core IMPACTS (Domain Shorthand)	Orienting Question	Learning Outcome(s)	Career-Ready Competencies
		historical, economic, political, social, or geographic relationships develop, persist, or change.	Perspective-Taking, & Persuasion

Students at all institutions must meet the Core IMPACTS requirements in all specified areas. However, institutions have considerable flexibility to tailor courses that meet these requirements to their institutional missions. Students must complete all Core IMPACTS requirements in order to earn associate of arts, associate of science, nexus, bachelor of arts, or bachelor of science degrees.

The Core Curriculum was established to provide the same general education for students throughout the system of public higher education in Georgia and to facilitate transfer between the various units of the University System of Georgia. Courses in the Core Curriculum apply to the freshman and sophomore years, and successfully completed Core areas will transfer with full credit to any other University System of Georgia institution. Students who earn the Associate of Arts degree or Associate of Science degree will have fully completed Core requirements. To complete all Core Curriculum requirements, the student must complete 42 semester credit hours of the core curriculum.

In addition to the 42 hours of core curriculum courses required in all AA and AS pathways of study, all AA and AS pathways, except for the Associate of Science in Nursing degree, require an additional 18 semester credit hours of courses related to the program of study for a total of 60 semester credit hours; institutional requirements for graduation include 2 semester credit hours of Health and 2 semester credit hours of Physical Education, for a total of 64 semester credit hours.

Courses Related to the Program of Study	18
Health and Physical Education	<u>4</u>
TOTAL	64

It is the student's responsibility to discuss academic plans and desired course selections thoroughly with their assigned faculty advisor in order to determine exactly which courses should be taken. All students are to consult with their faculty advisors in planning their course selections prior to registration for each semester. The various academic pathways appropriate to the different academic disciplines have been approved for University System institutions and should be followed if the student plans to transfer to a senior college or university within the University System of Georgia. Students who change degrees or associated pathways may have to complete additional hours of coursework beyond those required for completion of the pathway. A student who experiences difficulties in transferring credit to a University System of Georgia institution should contact the Chief Transfer Officer at that institution or at South Georgia State College. The Chief Transfer Officer at SGSC is the Registrar.

Students who plan to transfer to a college or university other than a University System institution should refer to the catalog of the college or university to which they intend to transfer. In some of the major academic areas, certain courses may not be taught at this institution. Again, students are urged to consult with their assigned faculty advisors to determine the extent of the applicable course offerings at South Georgia State College. Students are advised to follow the Pathway Map for their plan of study for timely completion of their program.

Revised 07/10/24

FOCUS AREAS

Focus areas and their related respective AA and AS academic pathways at SGSC are as follows:

Arts – includes Theatre (AS).

Business – includes Business Administration (AS) and Logistics (AS).

Education – includes Early Childhood (AS), Middle Grades (AS), Secondary (AS), Speech/Language Pathology (AS), and Health/PE (AS).

Health Professions – includes Allied Health (AS), Health and Human Performance (AS), and Nursing (AS).

Humanities – includes English (AA) and Foreign Language (AA).

Social Sciences – includes Communication (AA), Criminal Justice (AS), History (AA), Political Science (AA), Psychology (AA), and Sociology (AA).

STEM (Science, Technology, Engineering, and Mathematics) – includes Biology (AS), Chemistry (AS), Computer Science (AS), Mathematics (AS), and Physics (AS).

Students who may be undecided in a specific academic pathway should consider starting in one of the focus area pathways. Focus area pathways enable students who are undecided in their future studies and/or career goals to start in a pathway relative to their interests that can lead to a viable degree program. Courses taken in the focus area pathways are designed to assist students in making choices best suited to their interests and skills. Thus, as students progress in focus area pathways, they should be able to transition into appropriate academic pathways designed for transfer or degree attainment. Students must make this transition out of a focus area pathway and into a transfer pathway before or by the time they attain 30 credit hours, and they should consult their assigned advisor for assistance in choosing the appropriate pathway.

STEM (Science, Technology, Engineering, and Mathematics)

FOCUS AREA: ARTS

The Arts focus area is designed to allow students to explore various fine arts fields with an intent to continue their studies after transition into fine arts programs, such as Theatre. The goal of this focus area pathway is to encourage the development of a strong curricular foundation in the fine arts while allowing the student to explore areas of interest more deeply through a selection of focus classes. Academic advisement for this area is provided by the School of Arts and Sciences. Students should be ready to move into their desired transfer pathway by 30 hours.

You can only earn 30 hours in this focus area before you must change your major to either one of the associate pathways or a bachelor's field of study.

Focus Courses (Recommended to be taken within the first 30 hours in your program of study): EDUC 2110 (3), EDUC 2120 (3), EDUC 2130 (3)

**Courses require a "C" or higher

FOCUS AREA: HEALTH PROFESSIONS

The Health Professions focus area is designed to allow students seeking advanced degrees in various healthcare fields to transfer to programs in Allied Health, Health and Human Performance, or Nursing. The goal of this focus area pathway is to encourage the development of a strong curricular foundation in life science while allowing the student to explore areas of interest more deeply through a selection of focus classes. Academic advisement for this area is provided by the School of Arts and Sciences. Students should be ready to move into their desired transfer pathway by 30 hours.

**Courses require a "C" or higher

FOCUS AREA: STEM

The Science, Technology, Engineering and Mathematics (STEM) Focus Area is the perfect place for students interested in sciences, engineering, mathematics or computers. With a STEM degree, students can transfer to major universities to become medical doctors, pharmacists, marine biologists, petroleum engineers, computer programmers, and forensic scientists, to name just a few valuable professions. The goal of this focus area pathway is to encourage the development of a strong curricular foundation in STEM while allowing the student to explore areas of interest more deeply through a selection of focus classes. Academic advisement for this area is provided by the School of Arts and Sciences. Students should be ready to move into their desired transfer pathway by 30 hours.

ASSOCIATE OF ARTS: THEATRE

Students who earn the Associate of Arts degree in Theatre are prepared to transfer as juniors to a senior college or university. Students so prepared could elect to complete the bachelor's degree in Theatre. Those students could also opt for any number of programs offered by a school or college of arts and sciences. Academic advisement for this program is provided by the School of Arts and Sciences.

Institutional Priority "Contributing to a Global Community"

ASSOCIATE OF SCIENCE: ALLIED HEALTH

Students who complete this program are prepared to pursue the bachelor's degree in health-related fields at a senior college or university. Career opportunities are numerous and include dental hygiene, medical records administration, medical technology, nursing, occupational therapy, physical therapy, and sonography. Students enrolled in this program must work with an advisor to correlate their work at SGSC with that required by the senior college or university to which they plan to transfer. Academic advisement for this program is provided by the School of Arts and Sciences.

ASSOCIATE OF SCIENCE: BIOLOGY

Students completing the program may pursue a bachelor's degree in biology at SGSC or elsewhere or a related field at a senior college or university. Biologists study living organisms and the relationship between organisms and their environment. Most careers in biology require graduate study in a life science area. Many optometrists, veterinarians, and medical doctors major in biology. Other career opportunities include work in botany, agronomy, animal science, ecology, toxicology, pathology, physiology, and biological oceanography. Academic advisement for the program is provided by the School of Arts and Sciences.

ASSOCIATE OF SCIENCE: BUSINESS ADMINISTRATION

Students who earn the A.S. degree in business administration may pursue the bachelor's degree in accounting, economics, finance, general business, international business, industrial relations, management, management systems, marketing, real estate, risk management, and insurance. Academic advisement for this pathway is provided by the School of Arts and Sciences. SGSC has a Bachelor of Science in Management (BSM) degree which is designed to develop business students who have the ability to enter the workforce with a strong understanding of sound management, financial, organizational, communication, and critical thinking skills.

Core IMPACTS area

ASSOCIATE OF SCIENCE: CHEMISTRY

Students who complete this program are prepared to pursue the bachelor's degree in chemistry or a related field at a senior college or university. Chemists search for new knowledge about substances and for ways to put that knowledge to practical use. They work in research, manufacturing processes, quality control, marketing, and chemical sales. As with biology, many medical doctors, veterinarians, and pharmacists major in chemistry. Other career opportunities include science education and fields related to environmental concerns. Academic advisement for the program is provided by the School of Arts and Sciences.

ASSOCIATE OF SCIENCE: LOGISTICS

Students who complete this program are prepared to pursue the bachelor's degree in business administration with a major in logistics and intermodal transportation at a senior university awarding this degree, such as Georgia Southern University. Transportation firms, industry and government alike employ graduates trained and qualified in the coordination of intermodal transportation and supply chain management. With appropriate advisement, the A.S. degree in Logistics also prepares graduates for the bachelor's degree in accounting, economics, finance, general business, international business, industrial relations, management, management systems, marketing, real estate, risk management, and insurance. Academic advisement for this program is provided by the School of Arts & Sciences.

Institutional Priority – “Contributing to a Global Community”

ASSOCIATE OF SCIENCE: MATHEMATICS OR PRE-ENGINEERING

Students who complete this program are prepared to pursue the bachelor's degree in mathematics, engineering, or a related field at a senior college or university. Theoretical mathematicians develop new principles and new relationships between existing principles of mathematics. Applied mathematicians develop mathematical approaches to solve practical problems in business, government, engineering, and the sciences. Related career opportunities include education, actuarial science, operations research, and statistics. Academic advisement for this program is provided by the School of Arts and Sciences.

Focus Courses (Recommended to be taken within the first 30 hours in your program of study):

MATH 1113 (4), CHEM 1211K or BIOL 2107K (4), MATH 2253 (4)

**Courses require a "C" or higher

*Excess hours in both Mathematics and Quantitative Skills and Technology, Mathematics & Sciences used in Field of Study

ASSOCIATE OF SCIENCE: PHYSICS OR PRE-ENGINEERING

Students who complete this program are prepared to pursue the bachelor's degree in physics, engineering, or a related field at a senior college or university. Physicists use systematic observation and experimentation to investigate the structure of the universe and the interaction of matter and energy. Career opportunities include education, research, and product development. Engineers develop practical applications for scientific discoveries. Many career opportunities are found in subspecialties such as aerospace, chemical, civil, electrical, industrial, mechanical, mining, nuclear, and petroleum engineering. Academic advisement for this program is provided by the School of Arts and Sciences.

Mechanical Engineering Technology

Nursing, RN to BSN

BACHELOR OF SCIENCE: BIOLOGICAL SCIENCES

The Bachelor of Science in Biological Sciences offers students two options to engage in learning experiences that lead to rewarding careers. Students in the Nature and Ecology track will engage in study related to the unique ecological sites in the region and, upon completion, may seek advanced study or find employment in a variety of fields within governmental and private sectors. The Pre-Professional track is designed to meet prerequisite courses for entry into the professions of medicine, dentistry, pharmacology, and other health-related fields.

*ECSP 4405 requires a grade of "B" or higher (program requirement)

**Courses require a "C" or higher

In addition to the successful completion of the program of study and satisfactory performance in all field experiences (with a grade

of "C" or higher), BSELE/SPED students must also pursue the assessments required by the Georgia Professional Standards Commission for certification. To be considered a program completer and graduate, a student must meet the following requirements:

- *Attempt the Content GACE and Literacy GACE associated with the degree program;*
- *Earn a grade of "C" or higher in all major coursework; and*
- *Maintain an overall 3.0 GPA.*

To be eligible for teacher certification, candidates must receive passing scores on the Georgia Educator Ethics exit exam and the GACE content assessments for the degree field.

BACHELOR OF SCIENCE: MANAGEMENT (Organizational Behavior Option)

The Bachelor of Science in Management program is designed to allow students to complete one of three options, each consisting of 30 credits of upper-level coursework. The options are intended to link coursework with work experiences in the areas of Management and either Organizational Behavior, Marketing, or Financial Technology (FinTech). The goal of the program is to elevate the knowledge and skills of individuals who already possess an A.S. in Business and who seek the knowledge and skills needed to be effective leaders, business owners, work in the Financial Technology industry, or who seek career advancement. Students who have not completed the Area F requirement may take up to 12 hours of these courses concurrently as program electives.

BACHELOR OF SCIENCE: MANAGEMENT (FinTech Option)

The Bachelor of Science in Management program is designed to allow students to complete one of three options, each consisting of 30 credits of upper-level coursework. The options are intended to link coursework with work experiences in the areas of Management and either Organizational Behavior, Marketing, or Financial Technology (FinTech). The goal of the program is to elevate the knowledge and skills of individuals who already possess an A.S. in Business and who seek the knowledge and skills needed to be effective leaders, business owners, work in the Financial Technology industry, or who seek career advancement. Students who have not completed the Area F requirement may take up to 12 hours of these courses concurrently as program electives.

BACHELOR OF SCIENCE: Mechanical Engineering Technology

Bachelor of Science in Mechanical Engineering Technology (MET) graduates can work in many industries, and their work varies by industry and function. MET graduates will be able to apply the knowledge and skills they have learned in a number of local industries in the region. Job placement opportunities will exist in industries that rely on mechanical engineering consultations, product and materials testing, drafting and computer graphics, manufacturing, and quality management.
